BATHING BEAUTIES

Award-Winning
BATHROOMS

▲ **By Kimberlee Marie Interiors.** The client's small and outdated primary bath was transformed into an expansive retreat. By borrowing space from the largely unused hall bath, the designer was able to create a wet room for the client that creates a true spa-like experience. To add some interest and depth the designer did a patterned accent wall in the shower and balanced the black and white with warm wood tones. *Photography by Meagan Larsen.*
